Colorado Labor Men

Accuse Militia Head

"Gross violation of constitutional rights" by the Colorado militia in the Trinidad coal strike was charged in a telegram received today by Congressman Keating of Colorado, from a committee of five appointed by the Colorado Federation of miners, at the suggestion of the governor, to investigate the coal strike. The committee appealed for a congressional investigation.

The committee said it would soon make a report to the governor, and indicated that impeachment charges would be filed against General Chase, commanding the militia. That further decorations of strike leaders are planned by the militia, following that of "Mather" Jones, was asserted in the telegram.

Mr. Keating replied that he had every reason to believe that Congress would order an investigation soon after reconvening on January 12.
